

Standard Ancillary Products

External box corner

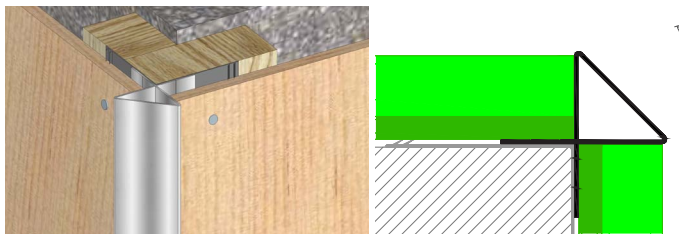

Ref	Description	Colours
AL/16	For 6mm panels, 3055mm lengths	Available in any colour <i>*setup costs may apply</i>
AL/18	For 8mm panels, 3055mm lengths	
AL/110	For 10mm panels, 3055mm lengths	

External arrow head corner

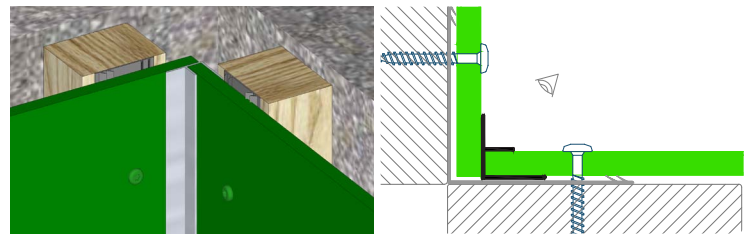

Ref	Description	Colours
AL/EX6	For 6mm panels, 3055mm lengths	Available in any colour <i>*setup costs may apply</i>
AL/EX8	For 8mm panels, 3055mm lengths	
AL/EX10	For 10mm panels, 3055mm lengths	

Shiplap external corner

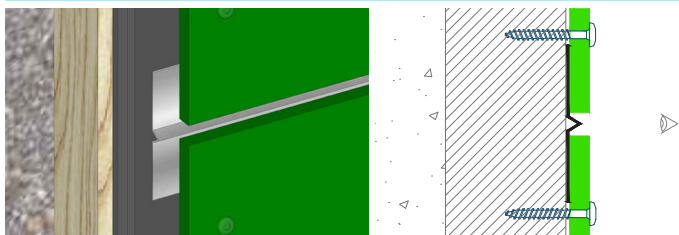

Ref	Description	Colours
AL/333	For shiplap systems, 3055mm lengths	Available in any colour <i>*setup costs may apply</i>

F type internal corner

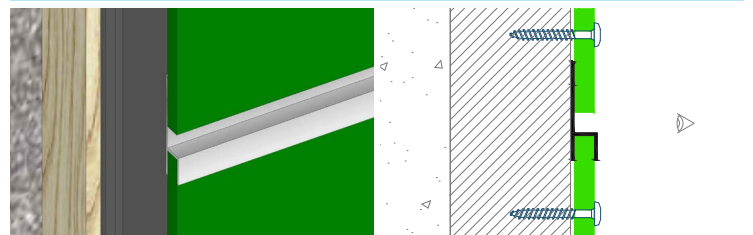

Ref	Description	Colours
AL/EF6	For 6mm panels, 3055mm lengths	Available in any colour <i>*setup costs may apply</i>
AL/EF8	For 8mm panels, 3055mm lengths	
AL/EF10	For 10mm panels, 3055mm lengths	

Birds beak

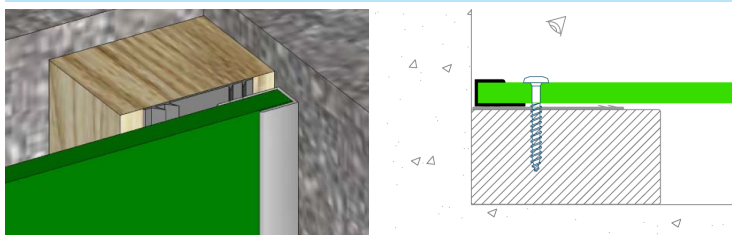

Ref	Description	Colours
AL/TP6	For any panel, can be used as a horizontal or vertical trim, 3055mm lengths	Available in any colour <i>*setup costs may apply</i>

Horizontal chair profile

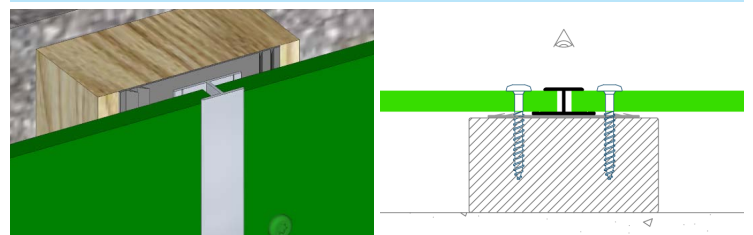

Ref	Description	Colours
AL/CH6	Chair profile for 6mm panel, 3055mm lengths	Available in any colour <i>*setup costs may apply</i>
AL/CH8	Chair profile for 8mm panel, 3055mm lengths	
AL/CH10	Chair profile for 10mm panel, 3055mm lengths	

Edge finishing profile

Ref	Description	Colours
AL/76P	Edge finishing trim for 6mm panels	Available in any colour <i>*setup costs may apply</i>
AL/78P	Edge finishing trim for 8mm panels	
AL/710P	Edge finishing trim for 10mm panels	

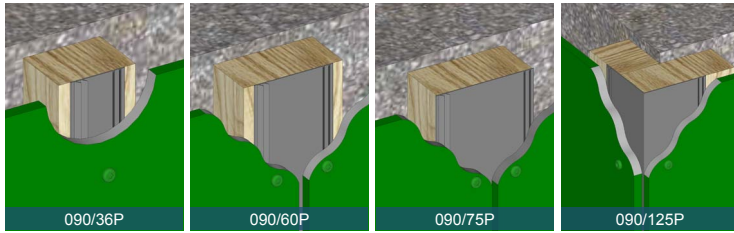

Vertical joint profile

Ref	Description	Colours
AL/66P	Vertical joint trim for 6mm panels	Available in any colour <i>*setup costs may apply</i>
AL/68P	Vertical joint trim for 8mm panels	
AL/610P	Vertical joint trim for 10mm panels	

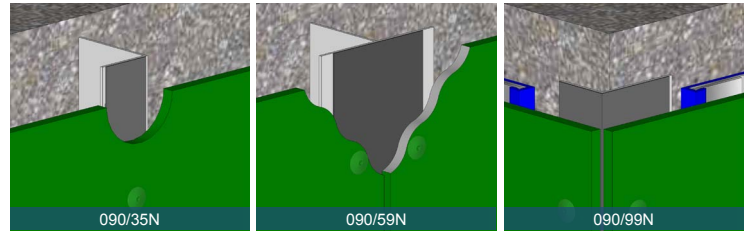

Standard Ancillary Products

Gaskets for timber

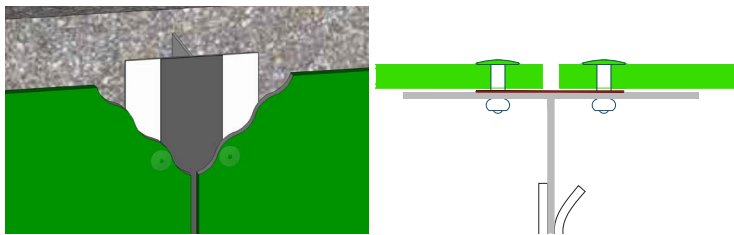

Ref	Description	Colours
090/36P	Gasket for intermediate panel supports, 25m rolls	Available in black or white
090/60P	Gasket for vertical panel joints, 25m rolls	
090/75P	Gasket for vertical panel joints, 25m rolls	
090/125P	Gasket for vertical joint, internal or external corners, 25m rolls	

Anti rattle tape for aluminium rails

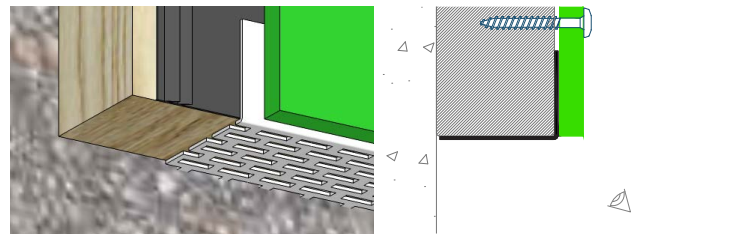

Ref	Description	Colours
090/35N	Anti rattle tape for intermediate panel supports, 25m rolls	Available in black
090/59N	Anti rattle tape for vertical panel joints, 25m rolls	
090/99N	Anti rattle tape for vertical joint, internal or external corners, 25m rolls	

Blackout tape

Ref	Description	Colours
PVC/50/33	50mm PVC tape to black out silver aluminium rails	Black
PVC/100/33	100mm PVC tape to black out silver aluminium rails	

Aluminium ventilation

Ref	Description	Colours
AL/VENT/30/40	30 - 40mm cavity closer, 2500mm lengths	Available in any colour <i>*setup costs may apply</i>
AL/VENT/30/50	30 - 50mm cavity closer, 2500mm lengths	
AL/VENT/50/70	50 - 70mm cavity closer, 2500mm lengths	
AL/VENT/30/100	30 - 100mm cavity closer, 2500mm lengths	
AL/VENT/30/120	30 - 120mm cavity closer, 2500mm lengths	

Screws for fixing panels to timber

Ref	Description	Colours
RP9	9mm head Torx screw for fixing 6 - 10mm panels to timber, 100 per box	Available in any colour <i>*setup costs may apply</i>
RP12	12mm head Torx screw for fixing 6 - 10mm panels to timber, 100 per box	

Rivets for fixing panels to aluminium rails

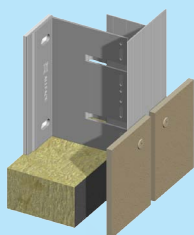

Ref	Description	Colours
RIVETS/18/14	14mm head rivet, grip range 8 - 14mm, box of 100	Available in any colour <i>*setup costs may apply</i>
RIVETS/18/16	16mm head rivet, grip range 8 - 14mm, box of 100	
RIVETS/23	16mm head rivet, grip range 14 - 19mm, box of 100	

We can also supply adjustable facade support systems to mount your cladding panels

Plastestrip Profiles are a stockholder and sole UK distributor for the Allface smart fixing system. Full technical backup including calculations, system design, take-off service and on site pullout tests.

- Compatible with most cladding panels.
- Extensive, fully adjustable range of systems solutions.
- Manufactured from high strength extruded aluminium.
- Thermal Separation-Elements to avoid thermal bridging.
- Suitable for fixing to masonry, timber and steel.
- Stocked in UK to allow fast turn around.
- Direct to site deliveries.
- Extended warranty available.

FastFrame is an adjustable cladding fixing system that works perfectly in conjunction with your cladding panel. We can offer an in house technical service to calculate the safest yet most economical bracket spacings to support your facade. Save time and money by completing the checklist from our website.

- 2 - 3 day in-house calculations specific to every application.
- FastFrame is available from a UK distribution network and is usually available ex-stock for overnight delivery.
- Compatible with most cladding panels.
- The adjustable, universal bracket, made from 5251 structural grade aluminium comes complete with an isolation clip and is suitable for most building substrates.
- The T & L rails are made from high specification 6063 T6 grade aluminium.
- On-site pull out tests by trained technicians.
- Fully backed by an independent structural engineer offering PI cover.
